

Application

```
graph BT; subgraph Cloud_Resources [Cloud Resources]; direction TB; SaaS[SaaS]; HaaS[HaaS]; DaaS[DaaS]; IaaS[IaaS]; end; Cloud_Resources --> Application[Application];
```

The diagram illustrates the layers of cloud computing services. At the top is a box labeled 'Application'. Below it is a large rounded rectangle labeled 'Cloud Resources' at its base. Inside this rectangle, there are four boxes: 'SaaS', 'HaaS', and 'DaaS' are arranged horizontally in the upper section, and 'IaaS' is in a box centered in the lower section. An upward-pointing arrow connects the top of the 'Cloud Resources' container to the 'Application' box.
